FINANCIAL AND COMMERCIAL.

TUESDAY, June 5-8 P. M. Gold experienced a further sharp upward turn to-day, the price having risen steadily from 143% at the opening of business to 146%, after which it relapsed to 145%. It then recovered to 145% and finally closed at 145%. Foreign exchange was at the same time very firm and active on the basis of 109% a 110 for bankers' bills on

England at sixty days, and 111½ a sight at short sight.

On the Stock Exchange the railway speculation showed increased strength and prices advanced with two or three exceptions. Erie was largely dealt in and well supported, while the stock was in such active borrowing lemand that 1/2 per cent was in many instances paid for demand that 1/2 per cent was in many instances plat for the loan of it. Reading and Fort Wayne were strong, but Michigan Southern was barely steady, not-withstanding its largely increased earnings, as compared with those of est year. The whole market, however, appears to be rising, and the strongest argument in favor of a rise is that based upon the advance in gold, which has lowered the specie value of every stock on the list, and in order to adjust prices upon their former basis with gold at 130, a rise of 4 a 10 per cent is necessary in all the leading railway shares. It will moreover be surprising if, with the prevailing nonetary case, something approaching to this does not

At the early session of the open board the market was but duil. Erie, after selling at the Fifth Avenu New York Central closed ¼ higher than at the half-past two board yesterday, Erie 1¼, Rick Island ¼, Northwestern preferred 1/4, Fort Wayne X, Cumberland 1 1/13 Reading was 1/4 lower, Cleveland and Pittsburg 1/4, Missouri State sixes 14. Quicksilver 52, Western Union Telegraph 60 ½ a ½. The supply of money available for employment on the Stock Exchange is increasing, and loons have been made freely at six per cent, with exceptions at five. Some of the banks are encumbered with national bank currency, nd this they have been willing to loan at the lower rate on railway collaterals. The demand from the stock brokers is, as yet, rather light, but on the increase, owing to the augmenting volume of business. The discount line is fairly active, and first class commercial

Decrease in debt bearing no interest. 361,152
Total decrease in debt. 27,697,421

It must be remembered that these have since been rapidly paid out. The amount in the Treasury on June 1 is stated to have been \$129,691,682; but the balance in the Sub-Treasury here this evening is less than eighty-three and a half millions, and it is fair to assume that a proportionate decrease has taken place in the Sub-Treelsewhere. It will be perceived that the amount of coin in the Treasury had decreased \$25,996,450 as compared with the returns of the preceding month, while the amount of currency had increased \$17,700,504.
